

Indus Net Technologies is All Set to Showcase Its Excellence in Innovative Enterprise Mobility Solutions at MWC 2015

Visit Indus Net Technologies at stall #8.1H21, to talk about your Innovative Mobility Solution Outsourcing requirements with assured ROI

Kolkata, India, February 2, 2015 – Indus Net Technologies, a known name in the global mobility industry, is getting ready to be a part of the Mobile World Congress, 2015. Scheduled to be held at Barcelona from 2nd to 5th March, 2015, it is the biggest mobile event in the world. Indus Net has been an active participant of this annual event for many years now and this year isn't an exception. The company has got a host of Enterprise Mobility solutions and products to showcase in this world-class event, which is believed to be one of the best global platforms for upholding companies' excellence in innovation.

With their motto "to innovate everyday", Indus Net Technologies so far has already developed & deployed more than 300 enterprise apps and is involved in a continuous process of web & mobile application development and innovation. This year, Indus Net has planned to showcase some of their latest products that would not just reflect the company's excellence in innovation but would even project their immense passion for technology. The list includes innovative mobile apps related to enterprise communication and collaboration, digital publishing, citizen governance etc.

Being an industry leader with a unique combination of creativity and technology, Indus Net Technologies caters to a wide range of digital agencies, emerging companies & enterprise clients across various industry verticals like BFSI, Education, E-Governance, MPE, Travel and Hospitality etc. in more than 40 countries. The solutions offered by this company are manifold and are tailored to specific business needs of clients that in turn enable the clients to Save Smarter & Grow Faster.

Apart from developing web and mobile applications, Indus Net Technologies has proved its excellence in a number of other fields like digital marketing. With its 17+ years of cross-industry experience and technological expertise across all major business functions, Indus Net helps corporations and Governments across the globe embrace the "Nexus of Forces" – Cloud/Web based Custom Application Development, Enterprise Mobility and Digital Marketing services to make their businesses future ready. Aimed at creating value for clients, this MNC operates out from its headquarter at Kolkata in India and other global branch offices & delivery centers in India (Chennai, New Delhi and Mumbai), UK, USA & Singapore. The company even offers Dedicated Hiring services for helping businesses to deliver strategic advantage to their respective clients. With affordable engagement models starting \$15/hour, Indus Net provides an assured ROI for companies looking to leverage disruptive & innovative mobility solutions.

However, leveraging technological expertise to develop best-in-class mobility solutions is what Indus Net Technologies is known for and this is what they are planning to showcase in the upcoming Mobile World Congress.
